

MEDISYS ON-DEMAND

Your 24/7/365 On-Demand Employee Healthcare Solution

Healthcare at Their Fingertips

Medisys On-Demand addresses the health needs of your employees and their families through secure text and video chat — anytime, anywhere.

Common illnesses, mental health issues and chronic conditions within your workforce can significantly affect your organization's productivity and bottom line. Medisys On-Demand instantly connects your employees to registered nurses and physicians who can triage, treat, refer and provide prescriptions related to a wide range of non-occupational health concerns — at home, at work or on vacation.

Medisys On-Demand Features

-  Unlimited virtual consults around the clock, from anywhere in the world, via secure text or video chat
-  Convenient, private, bilingual care for non-emergency physical and mental health concerns
-  Writing and renewing of prescriptions, specialist referrals, and lab requisitions completed in minutes
-  Coverage for partners and children
-  Follow-up care delivered virtually, with no appointments needed
-  Digital health record storage, with updates sent to employee's primary care physician upon request and applicable consent.

When to Use Medisys On-Demand

Avoid visits to walk-in clinics or emergency rooms for non-emergency issues such as:

- Infections
- Rashes & skin irritations
- Anxiety
- Stomach & digestive issues
- Cough
- Colds
- Depression
- Flu (without complications)
- Weight loss counselling
- Insomnia
- Smoking cessation
- Sport injuries
- + Much more

Please note: specific cases will require an in-person medical appointment at the discretion of the Medisys On-Demand health practitioner. Medisys On-Demand is not to be used for emergencies, workplace injuries, or in place of the disability case management process. The Medisys On-Demand health practitioners cannot complete Workers' Compensation forms or sick notes for more than three days.
